Subscription Terms: PhotoDonut Premium Yearly Subscription

You have selected a subscription with the following terms:

Duration: 1 Year
Billing Frequency: Not Applicable
Renewal: Automatic; renews into PhotoDonut Premium Yearly Subscription at $59.00 per quantity after 1 year

Be sure to note the duration and billing frequency shown above. Duration refers to the period of time the subscription service is available before it requires a renewal. Billing frequency indicates how often billings will occur during the duration. For example, if the duration is 12 months and the billing frequency is every 1 month, there will be a charge to your payment method for your order today, followed by a charge every month for the next 11 months. This billing process repeats for each renewal.

By clicking the "I Agree & Continue" button below, providing your payment billing information, and completing your purchase, you agree that your product subscription will automatically renew for successive renewal terms, and you expressly authorize and permit the subscription processor to charge your order today and all billings during the duration of your subscription to the payment method you have provided, and to automatically renew your subscription, until you cancel the automatic renewal and billing of your product subscription or the subscription
